EXPERIENCE

Visionet Systems Pvt. Ltd. <i>Software Engineer (AI & Backend Systems)</i>	Jun 2024 – Present Bengaluru, India
- Built and deployed LLM-powered and agentic AI systems for enterprise workflows used by 1000+ users - Reduced manual effort by 70% and improved system response time by 70% through automation - Developed conversational AI systems for query handling, context capture, and intelligent routing - Designed RAG-based pipelines and performed multi-model evaluation using OpenAI, Grok, and Perplexity - Integrated REST APIs and built scalable backend systems for automation and decision support - Mentored 4 developers and contributed to system architecture and production issue resolution	
Visionet Systems Pvt. Ltd. <i>Software Engineer Intern</i>	Jan 2024 – Jun 2024 Bengaluru, India
- Built workflow automation solutions reducing manual effort by 40% - Developed backend integrations and improved performance for systems serving 100+ users	
InternPe <i>Python Developer Intern</i>	Sep 2023 – Oct 2023 Remote
- Developed Python-based solutions focused on optimization, debugging, and performance improvement - Collaborated in a remote environment to solve real-world programming problems	

PROJECTS

AI Therapy Chatbot (LLM + RAG System)
- Building conversational AI using LLaMa (Ollama) with RAG pipeline for context-aware responses - Implemented document chunking, retrieval pipelines, and persistent memory using MongoDB
AI Service Recommendation System
- Built AI system using OpenAI APIs to recommend services based on user queries - Automated decision workflows and reduced manual lookup effort
Fake News Detection System
- Built NLP classification model using LSTM on dataset of 6000+ samples - Implemented preprocessing, feature engineering, and end-to-end ML pipeline

EDUCATION

Presidency University <i>Bachelor of Technology in Computer Science and Engineering (Data Science)</i>	2020 – 2024 India
Coursework: Data Structures, Algorithms, Databases, Machine Learning Activities: Theatre Club Coordinator leading 30+ members and organizing multiple events	

SKILLS

Languages : Python, JavaScript (React.js), SQL
Tools : FastAPI, Flask, MongoDB, MySQL, Git, REST APIs, LLMs, RAG, NLP
